

**Envisia**  
GENOMIC CLASSIFIER

# Talking to your doctor about diagnosing pulmonary fibrosis

## Understand your diagnostic journey and be your own best advocate

The Envisia® Genomic Classifier test can help your doctor diagnose your condition with confidence. It's important for your doctor to understand what type of lung disease is causing the scarring on your lungs so they can decide the best course of treatment for you.

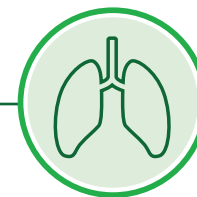

### PULMONOLOGY CONSULT

This is the start of your pathway to obtaining a clearer diagnosis. Partner with your doctor to make sure you understand what to expect.

### INITIAL TESTING

There are many tests your doctor may perform to determine what type of pulmonary fibrosis you have.

### FOLLOW-UP VISIT

The Envisia test, in combination with your other test results, can help your doctor better determine your diagnosis.

## QUESTIONS TO ASK YOUR DOCTOR
